What we discussed:

➔ Action points

1. Workshop at Design Factory with 10-15 Doctoral Students.
2. Teacher exchange (1 week DF <<>> PIEp)
3. Student collaboration
Master's thesis / PhD
PDP <http://www.pdp.fi>
4. Research collaboration

5. Common research project

Funding from:

TEKES

PIEp

Academy of Finland

Nord Forsk

Vinnova

6. Rectors

Innovation and collaboration workshop

7. Workshop "Next steps in global collaboration" >> Curriculum for Future Global Teaching

Outcome = video?

➔ I like...

...the DF atmosphere!

..."Just do it"

...Matti's definition of collaboration

...the mindset here

...the facilities & prototyping culture

...the idea of sharing and creating a strong environment for research and teaching together

...the atmosphere & culture

...the "real action" meeting

...that you were able to come so quickly!

...that you have created a Finnish version of a combination of the d.school, CDR, Delft, etc.

...the "Suomi" version of d.school

➔ I wish...

...LTU could make our own "Design Factory"

...we had the energy of doing what you've done so far

...we can also learn more about what you do in Sweden

...next action set

...we can do it >> InnoX

...we can develop more collaboration that meet common needs & interests

...that our administration could butt-out and we could create a DF

...to meet students working in teams

...that I can come here for one month

...to gain greater understanding of DF atmosphere and to create something with PIEp

...that you find a friend to work with you
